AI Sheathes – Split (green) and Unsplit (blue)

- All sheaths are manufactured from top quality plastic and comply with international AI Standards
- All sheaths fit both medium and mini straws
- Available in zip-lock packets of 50

Sanitary covered Sheaths

- Minimises contamination of the uterus during AI

Pistollette

- Fits both medium and mini straws

Douching Pipettes with rubber adapter

- Minimises contamination of the uterus when douching
- Available in zip-lock packets of 25

Gloves – Sensitive (orange) and Super Sensitive (green)

- Strong and durable
- Available in boxes of 100

New super soft, super strong, super quality gloves

- Sensitive self-locking AI Glove; stretch to lock
- Sensitive AI Glove long shoulder nek design

AI Lube

- Neutral Ph and safe to use for AI and assisting births
- 5 litre

KNOW the SCORE for higher pregnancy rates

ESTROTECT
BREEDING INDICATOR

Don't just detect cows for heat. Using EstroTECT[®] Breeding Indicators, identify when cows are ready to breed when the Breeding Bullseye[®] or equivalent area rubs off.

Born from university research, the Breeding Bullseye supports a unique patch scoring system to determine estrus intensity. Scores of 3 and 4? Breed cows with up to 3x higher pregnancy rates. Scores of 1 and 2? Hold off on breeding. Make easy yes or no breeding decisions with the EstroTECT Breeding Indicator.

1 2 < DON'T BREED

Score your Indicators:

BREED > 3 4

UDDER AND HOOFCARE PRODUCTS

FULVI-Udderpep 500ml

- Natural Anti-Inflammatory product
- Reduces swelling; ideal for edema or mastitis
- All natural – no antibiotics, no milk withdrawal
- Udder gel Liniment with Fulvic Acid (CHD-FA) 80%, Menthol 1%, Arnica 0.5%, Camphor 1%
- Improves udder health as it soothes and clears

FlyMop

Cattle oiler designed to protect livestock from flies that can affect the health and wellbeing of cattle. FlyMop should be hung in doorways and alleyways for year-round protection from flies.

HoofZinc Plus

HOOFZINC Plus is a liquid Zinc, Copper and Glutaraldehyde formula that is highly effective in preventing the growth of *Fusobacterium necrophorum* and *Prevotella melaninogenica*, bacteria known to cause foot rot and *Treponema* strains genetically and phenotypically similar to those that cause heel warts in cattle and sheep.

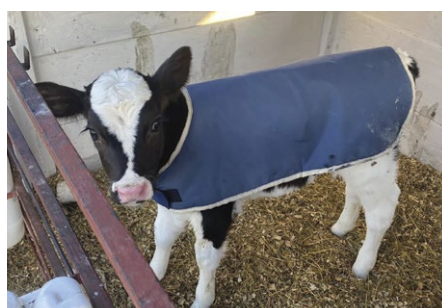

HoofPad Ultra

- Durable sponge mat covered with heavy duty nylon materials, strong enough for up to 150 000 cow passes
- Proven to be up to eight time more economic than hoofbaths
- Use in combination with HoofZinc or similar hoof remedies as an aid in treating Foot Rot and Hairy Heel Wart in cattle and sheep

Calf Warmer

- Protect sick or weak calves against extreme cold
- Available in small (Jersey) and large (Holstein)

CALF HEALTH AND HYGIENE PROGRAMME

Calf Accelerator Reg No: V24777 Act 36

- Healthier calves, the natural way
- The Probiotic in CalfAccelerator enables a favourable environment to prevent E. coli and other unwanted bacteria infestations in the rumen
- Contains: High Levels Vit A, Selenium, Electrolytes, B & E vitamins, mycotoxin binders and probiotics
- Packaging: 4kg and 10kg (5g/calf/day)

CalfGrow + SE Reg No: V24197 Act 36

- Protect your calves against scours/Crypto and Coccidiosis
- Immune booster
- With added Selenium
- Liquid Vitamin supplement for Milk fed calves
- High levels of Vit A, B & E
- Added MSM for extra health
- Contains: Lasalocid¹, Zink bacitracin and Niacin
- Packaging: 5 litre (10ml/calf/day)

ElectroCalf Reg No: V24776 Act 36

- Relieve the symptoms of Scours the way nature intended
- Contains a unique blend of electrolytes, glucose, vitamins, kaolin, pectin and probiotics
- Oral rehydration formula that can be fed in conjunction with a normal milk diet
- Reverse the process of dehydration, electrolyte loss and acidosis in scouring calves
- Packaging: 2kg and 10kg (50g/2litre milk – 3 to 4 feeds)

Vitalytes Reg No: V24778 Act 36

- Give your calves a boost
- Improve immune system and energy levels of calves 7 - 12 days after birth
- Blocks the colonisation of pathogens, thus less diarrhoea
- Contains Vitamins, Electrolytes and Probiotics
- Packaging: 2kg and 10kg (25g/calf/day)

Nekka-Rich

- Activated charcoal from bark and wood vinegar
- Proven effects on Cryptosporidiosis
- No side effects on young ruminants
- Easy to administrate
- This synergetic combination has been shown to have an anticryptosporidial efficacy in reducing or eliminating Cryptosporidium parvum infections in calves
- Packaging: 1kg and 5kg (20g/calf/day)

Lacipro FLX Calf V33218 (Act 36 of 1947)

- Average Daily gain up to 17%
- Feed Efficiency 4% better
- Body weight 4,9- 5,8kg heavier
- Wean 4-6 days earlier.
- ROI Estimated 213%
